Allowable Subject Matter

1. Claims 1-6 and 8-18 are allowed.
2. The following is an examiner's statement of reasons for allowance: In the response filed 2/9/2004, applicant submitted a certified translation of the foreign priority document of the instant application to overcome the 102(a) rejection over Kim (JP 2001-188341) and amended the instant claim 1 to include the limitations of claim 7 which was canceled in the response to overcome the 102 rejection over Kim '384. With respect to the 103 rejections, the rejection over Shimada was overcome by applicant's filing of the certified translation of the foreign priority document of the instant application, and filed a declaration stating that the instant application and the '384 patent "are commonly owned currently and have always been commonly owned by the same party" to overcome the 103 rejection over the Kim '384 reference. Stating that the '384 patent and the instant application have "always" been commonly owned, has been interpreted as stating that the instant application and the '384 were commonly owned at the time of invention. Therefore, the instant claims are now allowable over the prior art of record.

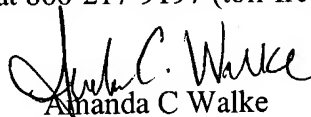

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
